Home: 21073 Hamburg (Germany)

ABOUT ME

I am a curious and autodidactic engineer; passionate about Linux, Open Source, Cyber Security, and AI; with 3+ years of experience. I love to work in a fast-paced, and flexible organization; and I look forward to roles in Data Engineer/Data Science/ DevOps/MLOps domains. I am open to relocate to any part of Germany, if required.

SKILLS

Programming

Python / Bash / YAML

Operations

Git / Docker / Kubernetes / Terraform / Apache Kafka / CICD / ArgoCD / Grafana / ElasticSearch / Azure

Security & OS

Wiz / Polaris / Trivy / Ubuntu / RHEL

Artificial Intelligence

ANN / LLM / NLP / RAG / Agentic-AI / Prompt-Engineering / PowerBI / Databricks

Project Management

Agile / Scrum / Confluence / Jira

WORK EXPERIENCE

E.ON GmbH – Hamburg/Essen, Germany

DevOps & Project Management - Werkstudent

[01/07/2025 – Current]

E.ON Group Innovation GmbH: Project Management

- Project Management of 'E.ON Future Makers Challenge 2026-27', a joint collaboration between E.ON, Infosys, and IIT Madras, India.
- Supporting Solution Scaling & Tech Enablement team within E.ON innovation ecosystem; with evaluating, testing and scaling technologies; setting legacy & new product MVPs for Alpha testing & showcases.
- Setting up communication workflows & dashboard within the team; technical due-diligence in onboarding/offboarding of team members and products.

E.ON One GmbH: DevOps

- Manage Azure cloud infrastructure; overlooking CICD pipelines, deliveries, bug fixes, upgrades, uptime, and maintenance; including on-boarding and off-boarding products gracefully.
- Investigate and mitigate Vulnerabilities & integrated security tools such as Wiz and Polaris into existing pipelines for B2B & B2C products of E.ON One to reduce turnaround-time for security debt, and adhering E.ON Security Compliance.
- Manage scheduled cleanup for Azure Cloud Operational Cost optimization to achieve 10% reduction.

 **Institute of Software Security at TU Hamburg** – Hamburg, Germany

Volunteer Student Research Assistant

[01/06/2025 – 30/06/2025]

- Performed Rapid Literature Review (RLR) to identify and evaluate the suitability of available Threat and Risk Assessment (TaRA) methods for Agentic AI-based SaaS for enterprise in cooperation with Creatum GmbH.
- Proposed hybrid solution by pursuing existing approaches, customised for Creatum's AI product.

 **Institute of Medical Technology and Intelligent Systems at TU Hamburg** – Hamburg, Germany

Student Research Assistant

[01/04/2024 – 30/09/2024]

- Supported in designing and implementing an end-to-end MLOps pipeline for the classification of artificially generated brain MRI images; using Hydra and Pytorch Lightning [\[link\]](#) – A research project funded by the Federal Ministry for Economic Affairs and Climate Action (BMWK), Germany.

 **Tata Consultancy Services Limited** – Ahmedabad, India

DevOps Engineer – Cloud Native Microservices

[01/11/2020 – 30/09/2023]

- Migrated proprietary monolithic applications to cloud-native microservices of Ericsson, Athlone, Ireland; with full control over Software Development Lifecycle. This increased maintainability, scalability, and security of business logics.
- Provided containerized versions of microservices based on Apache Kafka, with detailed technical documentation and after-delivery maintenance; resulting in faster and reliable deliveries.
- Integrated Security tools such as XRAY and Trivy Scan into existing pipelines for B2B products of Ericsson, significantly reducing turnaround-time for security debt, and smoother bug fixes.

EDUCATION AND TRAINING

Data Science, Masters of Science (MSc.)

Technische Universität Hamburg [01/10/2023 – Current]

City: Hamburg | Country: Germany | Level in EQF: EQF level 7

- Current German GPA: **2,13**
- **Research Project:** LLM Agent for Circular Economy 9R Strategy Identification - a OpenAI based, Retrieval Augmented Generation GPT model for identifying and assessing the 9Rs using Python, Bash and Docker; trained on Sustainability Reports of 200+ companies. (12 ECTS)
- **Group Project Work #2:** [Human Centric AI] Interactive Website on explainability of AI concepts. (6 ECTS)
- **Group Project Work #1:** [Big Data] Sentiment Analysis ML Pipeline for Kafka-streamed Reddit Comments. (3 ECTS)

Computer Engineering, Bachelors of Engineering (BEng.)

Gujarat Technological University [01/08/2016 – 30/09/2020]

City: Ahmedabad | Country: India | Level in EQF: EQF level 6

- German GPA: **1,48**
- H+ Certified Degree Certificate as per the „Zentralstelle für ausländisches Bildungswesen“.
- **Bachelor's Thesis:** Accident detection with Deep Learning - Built image classification pipeline that classifies traffic surveillance images to detect accidents and generate timely notifications for First-aid & Law enforcement services.
